Pre-Qualification for Bidders

Revamping and Upgradation of Solar System, Electrical works and Centralized Power Room at HQs Office of Pakistan Meteorological Department

1. Project Overview

The Pakistan Meteorological Department (PMD) intends to **Repair and Upgrade its Electrical and Solar System** at HQs Office, Islamabad. This initiative is aimed at ensuring a **sustainable, reliable, and energy- efficient power supply** while reducing dependency on conventional energy sources.

The project scope includes **revamping works of both electrical and solar power**, along with the **repair and upgradation of centralized power room** for effective power management and distribution across all PMD HQs office buildings. The existing power generators will also be relocated and integrated into the centralized power room to achieve **consolidated power management and enhanced backup capability**.

In addition, the project covers the **supply and installation of underground electrical cables** from the electric meters to centralized power room and then to the respective office blocks, as well as the provision of **distribution boxes equipped with breakers, protection devices, and other necessary components** to ensure safe, reliable, and uninterrupted power supply throughout the facility.

Further, the project scope also includes stand-alone solar powered lightning system.

Location: PMD Headquarter Office, Sector H-8

2. Project Scope

1. Repair/ replacement of Solar panels, invertors and backup batteries along-with Integration with existing WAPDA supply.
2. Repair and upgradation of Centralized Power Room aimed for distribution and control of electricity at PMD HQs Office. Supply and installation of underground cable from the main electricity meters to the distribution board, sized with an additional 30% capacity margin to accommodate future load expansion.
3. Relocation of existing power generators and integrating with the centralized power room.
4. Repair and upgradation of stand-alone solar powered streetlights in PMD HQs office.
5. Installation of distribution boxes / panels at each building.
6. Dismantling of existing obsolete solar panels, invertors and accessories.

3. TECHNICAL EVALUATION CRITERIA

S. No	PMD Evaluation Criteria	Marks Obtained	
1	Duly licensed in same category by the Pakistan Engineering Council (PEC) category EE-04 and EE-11.	▪ Licensed = 10 ▪ Non-Licensed = 5	
2	Firm has completed similar scale projects in public sector with evidence of Supply/Purchase orders.	No. of projects	Marks
		▪ Greater or equal to 5	20
		▪ Greater or equal 3 and less than 5	15
		▪ Less than 3	0
3	The time since the firm has been in this business and the time since firm has been doing work of similar nature.	No. of years	Marks
		▪ Greater or equal to 5	15
		▪ Less than 5	0
4	Provide feedback on company’s letterhead from companies where similar scale projects carried out with Verifiable executive level contact details.	No. of positive feedback	Marks
		▪ Greater or equal to 5	20
		▪ Greater or equal 3 and less than 5	15
		▪ Less than 3	0
5	Firm has verifiable physical commercial office/sub-office with helpline.	Yes= 15 no = 0	
6	Names, qualifications and experience of the key technical personnel with verifiable credentials. Attach CVs of the listed personnels.	No. of personnel(s)	Marks
		Greater or equal to 10	20
		Greater or equal 5 and less than 10	10
		Less than	0
Technical Weightage (70%) Formula= (Obtained marks) X (Weightage)/100		100	
Qualifying Technical Marks = 45
